	Chaples 1 - Practice Set
04	Write a C program to calculate area of a rectangle:
<u> </u>	reclamate.
* 1	Complete the second of the second
(a)	Using hard coded inputs
(b)	Using hard coded inputs Using inputs Supplied by the User
Cont	In ready to take labor from the sleer
August n	Lassign it to a variable for our signal
W 2	Colculate the varea of a circle and modify the Same program to calculate the Volume of a cylinder given its radius and height
	same program to calculate the Volume of
=	a cylinder given its radius and neight
Q 3	Write a byongom to convert Celcius (Centingade
//	Write a program to convert Celcus (Centigrade degrees temperature to Farenheit)
aft to	The standard of the field of the standard of t
24	Write a program to calculate simple interest
//	for a set of values representing principal,
	Write a program to calculate simple interest for a set of values representing brincipal, no of years and vate of interest!
	L
